http://ocw.mit.edu/

The screenshot shows the MIT OpenCourseWare website. At the top, there is a navigation bar with links for 'COURSE LIST', 'ABOUT OCW', and 'HELP | FEEDBACK'. Below this is a large banner with the MIT logo and the text 'MIT OPEN COURSEWARE MASSACHUSETTS INSTITUTE OF TECHNOLOGY'. A search bar is located on the left side. The main content area features a 'Welcome to MIT's OpenCourseWare' message, a list of 'AVAILABLE COURSES' with sub-categories like 'Architecture' and 'Biology', and a 'Partners in Sharing' section mentioning 'ab initio' software. A quote from Captain Kevin Gannon is also visible.

http://dspace.org/

The screenshot shows the DSpace website homepage. It features a dark header with the 'DSpace' logo. A navigation menu on the left includes links for 'Home', 'Introducing DSpace', 'DSpace Technology', 'DSpace Federation', 'Building an IR with DSpace', 'Malware Lists', and 'DSpace Wiki'. The main content area has a 'Welcome to DSpace' section, a 'News and Announcements' section with several bullet points, and a search box on the right.

http://libraries.mit.edu/about/scholarly/copyright-form.html

The screenshot shows the MIT Libraries Copyright Amendment Form page. It features the MIT Libraries logo and a navigation bar. The main heading is 'MIT Copyright Amendment Form (Amendment to Publication Agreement)'. Below this, there are links for 'MIT Copyright Amendment Form [MS Word]' and 'MIT Copyright Amendment Form [PDF]'. A paragraph explains that the form was developed at MIT and is intended for authors to retain rights when assigning copyright to a publisher. At the bottom, there is contact information for 'ocw@mit.edu' and the MIT logo.

### Scholar's Copyright Project

Providing standard, responsible copyright agreements ensuring the right of scholars to archive their work on the public internet.  
Please read the [Scholar's Copyright Project - Background Briefing](#) for the issues driving Science Commons' work in this area.

#### AVAILABLE NOW:

"Author Addenda" - a suite of short amendments that authors attach to the copyright transfer form agreements from publishing companies. The Addenda ensure, at a minimum, that scholarly authors retain enough rights to archive their work on the public internet.

**Every Science Commons Addendum ensures the freedom to use scholarly articles in teaching, conference presentations, lectures, other scholarly work, and professional activities. They differ in the following ways:**

- A. The [Open Access Creative Commons 1.0 Addendum](#) reserves the right for the author to post the published version (for example, as a .pdf file) immediately and to grant others a Creative Commons [Attribution NonCommercial](#) license to use the article.
- B. The [Open Access Publish 1.0 Addendum](#) reserves the right for the author to post the published version immediately upon publication.
- C. The [Open Access Delay 1.0 Addendum](#) reserves the right for the author to post the author's final manuscript version immediately and the published version six months after publication.

We have prepared a [Scholar's Copyright Project - Frequently Asked Questions](#) document that explains how to use the Addenda.

#### COMING BY FALL 2006:

- A Web-based tool that will enable faculty authors to generate the Addendum of their choice with all form fields automatically filled in.
- Layperson-readable versions of the Addenda (similar to the Creative Commons "Common Deed" copyright documents).
- Machine-readable versions of the Addenda to enable advanced software usage of the Addenda, database tracking, and empirical evidence gathering. This builds on our pre-existing [metadata partnerships](#) with [PASC](#).

Neither Creative Commons nor Science Commons provide legal advice. Please see <http://sciencecommons.org/ethics.aspx> for more information.
