The academic leadership of UMUC’s cybersecurity programs reflects a rich background of experience and scholarly achievement.

Dr. Alan Carswell, chair of cybersecurity and information assurance in The Graduate School, began teaching for UMUC in 1989, having served most recently as director of advancement operations for Howard University in Washington, D.C. He holds an MBA from Harvard Business School and a PhD in information systems and strategy from the Robert H. Smith School of Business at the University of Maryland, College Park. He currently serves as a member of the advisory boards of the National University Technology Network and of the CyberWATCH Consortium.

Dr. Amjad Ali is director of the Center for Security Studies and associate chair of the department of cybersecurity and information assurance in The Graduate School. He served previously as dean of the Keller Graduate School of Management–New York Region. He received an MS and PhD from the George Washington University in Washington, D.C., and is a member of the advisory board of the Center for Strategic Cyberspace and Security Science. Previously, he served on the Cybersecurity Advisory Council at the Maryland Higher Education Commission.

Dr. S. K. Bhaskar is assistant dean, computer information systems and technology department, in The Undergraduate School. He joined UMUC in 1998 after serving as senior programmer and analyst at SRA Technologies, Inc., in Falls Church, Virginia. He holds an MS from the School of Automation, Indian Institute of Science, in Bangalore, India, and earned his PhD in computer science from the University of Maryland, College Park. He has published articles in a variety of scholarly journals, including *Pattern Recognition* and *Computer Vision, Graphics, and Image Processing*.

Dr. Jeff Tjiputra, who joined UMUC in 2010, is academic director of computer networks and security and of cybersecurity in The Undergraduate School. Previously, he chaired the Business and Technology Division at the College of Southern Maryland.

He earned his Master of Liberal Studies in internetworking management from Fort Hays State University in Kansas, and his DSc in systems engineering from the George Washington University. He currently serves on the advisory board for the upcoming GovSec Conference in Washington, D.C.
