INTRODUCTION INFORMATION
INFORMATION FOR VENDORS

The University of Maryland University College (UMUC) Office of Procurement and Business Affairs and the Office of Strategic Contracting are responsible for the procurement of all equipment, services, materials, and supplies utilized by the UMUC campus. The Office of Procurement and Business Affairs handles the day-to-day routine procurements, while the Office of Strategic Contracting handles the strategic, university-wide and/or enterprise-wide procurements for UMUC.

POLICY

Only the Office of Procurement and Business Affairs and/or the Office of Strategic Contracting has the responsibility to conduct all negotiations concerning price and condition of sale for all purchases and anticipated purchases for UMUC. Individual departments or employees are not authorized to sign or enter into a contract or place orders without approval of one of these Offices.

GETTING ACQUAINTED

Sales representatives are requested to call the Procurement Officer in the relevant Office [i.e., Procurement and Business Affairs, or Strategic Contracting] [see “Appendix 1 – Contacts” for the names and contact information for procurement personnel] and make an appointment to ensure that the buyer will be available to visit with the representative in order to become more acquainted with your business. Sales calls on individual departments are not permitted unless requested by the UMUC Requesting Department. Vendors must recognize that such visits may be only informational and create no obligation to purchase from the vendor. Departments are not authorized to enter into contracts with vendors without the prior approval and authorization of the Procurement Officer.

VENDOR SELECTION

The Procurement Officer is also responsible for the selection of reputable and reliable vendors. Vendors who have not previously done business with UMUC are advised to contact the Procurement Officer or see our website at www.umuc.edu/procurement to get in contact with the appropriate buyer. UMUC endeavors to conduct its business in a fair and equitable manner. Purchases will be made on the basis of quality, service, delivery, and price.
PURCHASE ORDERS, CONTRACTS AND P-CARD

Issuance of an official purchase order, contract, or use of the VISA purchasing card are the only methods of purchase for goods and services obligating UMUC. There are two ways to make a procurement:

1) The standard purchase order or applicable contract form may be used for orders of any dollar amount.

2) The VISA purchasing card may be used for making purchases where the single order does not exceed $4,999. Vendors are cautioned that some cards have lower single transaction limits (less than $4,999) and monthly credit limits vary on a per card basis. *It is illegal to artificially split orders in order to avoid the procurement process.* *(Note: The Visa purchasing card program is handled by UMUC’s Office of Finance. Contact Lois Kirk at lois.kirk@umuc.edu for further information.)*

When an emergency or urgency arises, the Procurement Officer may place an order by telephone or other means (i.e., fax). However, in those instances, a purchase order number is assigned and a confirming order will follow.

THE BIDDING PROCESS

In accordance with the University System of Maryland Procurement Policies and Procedures, UMUC conducts an open, competitive bidding process. Depending on the dollar value of the order, this process may take the form of fax quotations, e-mail offers, written bids, or Request for Proposals (RFP’s).

In order to be awarded a purchase order for goods and services from a UMUC bid, a vendor must be the lowest responsive and responsible bidder meeting the specifications as required. In many instances, when choosing a vendor, UMUC may consider factors other than price, including the types of goods and services to be supplied, the particular needs of the requesting department, the date of delivery, and the reliability, quality, and experience of the vendor (which is the case in an RFP).

UMUC may directly solicit vendors. Vendors may also request copies of RFB’s or RFP’s by contacting the appropriate buyer. Notice of solicitations can be obtained by contacting the Procurement Officer directly. Notices of solicitations that are expected to exceed $100,000 are also posted on UMUC’s electronic bid board at www.umuc.edu/procurement. Notices of solicitations, which are expected to exceed $100,000.00, are generally listed in the eMaryland Marketplace, https://emaryland.buyspeed.com/bso/. The eMM help desk can be contacted directly at (410) 767-1492 for subscription information.
When a vendor has received a Request for Bid or Request for Proposals (RFB/RFP), the vendor is responsible for following the instructions given in the RFB/RFP to ensure the provision of all requested information including the Bid/Proposal Affidavit form. All responses are to be returned to the Procurement Officer by the due date and time specified (late Bids/Proposals will not be accepted without exception). Bid price openings are public; RFP technical and price proposal openings are not public.

**TAX AND INVOICE INFORMATION**

UMUC, as an agency of the State of Maryland, is exempt from all Maryland Sales and Use Tax, D.C. sales tax and manufacturer’s federal excise taxes. Each purchase order or contract issued makes reference to the tax-exempt status. If requested, an exemption certificate will be furnished. [Note: Construction is NOT tax–exempt].

Invoices for Purchase Orders (PO’s) and contracts must be sent electronically to the Accounts Payable Department, University of Maryland University College, Admin 4200, 3501 University Boulevard East, Adelphi, MD 20783 at accountspayable@umuc.edu and must include the purchase order number and vendor’s FEIN number. Invoices for P-Card purchases are to be sent directly to the cardholders, NOT to the Accounts Payable Department or Procurement Officer. Invoices that are not properly identified will not be accepted.

**MINORITY BUSINESS ENTERPRISE (MBE)**

It is the intent of UMUC to seek and encourage participation by minority businesses. In order to qualify as a minority vendor, vendors must be certified as such through the Maryland Department of Transportation (MDOT). Certification information can be found at [http://www.mdot.maryland.gov/Office%20of%20Minority%20Business%20Enterprise/HomePage.html](http://www.mdot.maryland.gov/Office%20of%20Minority%20Business%20Enterprise/HomePage.html) or contact MDOT directly at (800) 544-6056 or fax (410) 865-1309.

Certification as an MBE provides greater exposure for work opportunities on State projects. The names of all certified MBEs appear in the MBE Directory, which is available online to each MDOT administrator, other state departments, local governments, contractors and to the public. Contractors use the MBE Directory as a basic resource for soliciting minority participation on projects. If a firm is not certified, the University or the contractor cannot receive credit toward achievement of the MBE participation goal by using that firm.
SMALL BUSINESS RESERVE (SBR)

In October, 2004, the State of Maryland implemented the Small Business Reserve program. Maryland State Agencies (including the University System of Maryland) are required to award 10 percent (10%) of total procurements each year to Maryland-certified Small Business Enterprises. It is at the discretion of the agency to designate certain procurements as Small Business Reserve procurements. Only registered certified Small Businesses may respond to these solicitations. Registration to become a Maryland-certified Small Business Enterprise only takes a few minutes and may be done online at eMaryland Marketplace at their website located at https://emaryland.buyspeed.com/bso.

Effective October 1, 2012, the definition of Small Business for the State of Maryland changed. Previously, businesses had “not to exceed” industry-specific number of employees AND gross sales [average over three (3) most recent completed year] limits. Now, businesses need to meet the industry-specific “not to exceed” number of employees OR gross sales limits. This will allow many businesses that previously were unable to qualify to become eligible for qualification.

A Small Business is now defined as a business, other than a broker, that meets the following criteria:

- Is independently owned and operated; the business is not a subsidiary of another business; and the business is not dominant in its field of operation.

AND

- The wholesale operations of the business did not employ more than 50 persons, OR the gross sales of the business did not exceed an average of $4,000,000 in its most recently completed three (3) fiscal years *

- The retail operations of the business did not employ more than 25 persons, OR the gross sales of the business did not exceed an average of $3,000,000 in its most recently completed three (3) fiscal years *

- The manufacturing operations of the business did not employ more than 100 persons, OR the gross sales of the business did not exceed an average of $2,000,000 in its most recently completed three (3) fiscal years *

- The service operations of the business did not employ more than 100 persons, OR the gross sales of the business did not exceed an average of $10,000,000 in its most recently completed three (3) fiscal years *

- The construction operations of the business did not employ more than 50 persons, OR the gross sales of the business did not exceed an average of $7,000,000 in its most recently completed three (3) fiscal years *
• The **architectural and engineering services** of the business did not employ more than **100 persons**, OR the gross sales of the business did not exceed an average of **$4,500,000** in its most recently completed three (3) fiscal years *;

* If a business has not existed for three (3) years, the gross sales average is computed for the period of the business’ existence. For newly formed businesses, the determination will be based upon employment levels and projected gross sales.
SIMPLIFIED PROCUREMENT PROCEDURES
($4,999 OR LESS)
Simplified Procurement Procedures
Orders $4,999 or Less

In accordance with the Procurement Policies and Procedures established by the University System of Maryland and implemented by UMUC, if a department has a requirement for small dollar procurements $4,999 or less, the following procedures apply. **It is prohibited to intentionally split orders to avoid following the appropriate procurement procedures.**

- Competition is preferred but not required.
- The VISA Purchasing Card (“P-Card”) must be used wherever possible in accordance with the Policies and Procedures governing the use of the P-Card. Please note that for some purchases, the P-card cannot be used if they are restricted by either State of Maryland or UMUC policy.
- If the P-Card is not used, the request must be submitted via PeopleSoft to Procurement for processing.
- Where time permits and it makes good business sense to compare pricing, the Requesting Department and/or the Procurement Office may attempt to do so by doing the following:
  - Contact a minimum of two (2) vendors via telephone, facsimile, email, etc. (including MBE Certified contractors).
  - Document, for the record, the pricing obtained (have the vendors fax quotations, print email information, etc.)
  - Make a note of additional pricing or attach documentation to requisition and forward to the Procurement Officer.

If you have any questions, contact the Procurement Officer (see Appendix 1 for contact information).
SIMPLIFIED PROCUREMENT PROCEDURES
($5,000 but less than $100,000)
Simplified Procurement Procedures
For Orders $5,000 but Less than $100,000

In accordance with the Procurement Policies and Procedures established by the University System of Maryland and implemented by UMUC, where the simplified procurement is $5,000 but less than $100,000, the scope of work or requirements for the procurement must be forwarded by the Requesting Department to the Procurement Office for processing. There must be competition to the extent practical considering such factors as the availability of vendors, dollar value of the order, cost of administering the procurement, delivery time, and sound business judgment and practices. It is prohibited to intentionally split orders to avoid following the appropriate procurement procedures. The process for these orders is the following:

- **UMUC Requesting Department’s Responsibilities:**
  - Prepare a requisition in PeopleSoft setting forth the requirement
  - The requisition must include specifications, to the extent available, including information regarding delivery requirements, suggested vendors, estimated value, etc.
  - If the requisition is for an item considered to be a sole source, the department must attach a sole source justification (using the Sole Source Justification Form) explaining the nature and reason for the sole source request. This form may be found on the Engage website under Procurement.
  - Submit the requisition through PeopleSoft for processing

- **The Procurement Officer has broad discretion in the type of procurement method to utilize as well as in fashioning suitable evaluation procedures for simplified procurements. The Procurement Officer may process these orders using any of the following procurement methods:**

  - **Sole Source Procurement** – May be used, if appropriate and justified by the Requesting Department with concurrence by the Procurement Officer. Requesting Department must attach a written justification stating the following:
    - Need for the service or commodity
    - Uniqueness of the vendor’s qualifications, experience, commodity, service
    - Attempts to find other sources
    - Impact if this vendor was not selected. The Sole Source Justification Form (found under Procurement on Engage website) shall be used. If additional space is needed, a separate memorandum may be prepared providing the information set forth above. If available, department should attach a written price quote (via fax, e-mail, etc.) confirming the cost.
Simplified Procurement Procedures
Orders Between $5,000 and $100,000
Continued

❖ **Solicitations** – Under a simplified procurement method, offers may be obtained in any manner that best meets the needs of the requirements for the good/service and/or the Requesting Department including through a formal written solicitation process, orally, fax, e-mail, etc. The Procurement Officer will work closely with the Requesting Department to establish the specifications/requirements and evaluation criteria for the solicitation as well as to source vendors. Time for processing will depend on dollar value and complexity of procurement and location of vendors/contractors.

a) **One step process** in which a written document is sent to or verbal request is made of an adequate number of vendors/contractors to ensure competition. Specifications/requirements are developed working with the department and permit a **quotation/offer based on lowest price or best value** from a vendor/contractor who is both responsive and responsible and meets the specifications/qualifications set forth in the request.

b) In some cases, it may be advantageous to conduct a **phased simplified solicitation** wherein Offerors initially submit written qualifications of their firm and/or key staff as well as a price. After review of the written submittals by appropriate UMUC staff, which generally includes the Buyer only those Offerors evaluated by UMUC as technically and/or financially qualified will progress in the procurement and be considered for the award. In some cases, the shortlisted vendors will be interviewed by UMUC for further clarification and evaluation of the Offeror. Based on the clarifications and/or additional information received during the interview process, UMUC may further shortlist. Generally, these awards are made to the Offeror who is evaluated (based on written submittals and oral interviews) to be the most advantageous to UMUC. This phased methodology is often used where the requirements of the procurement are difficult to quantify or where the award will be based on factors other than cost. Due to the complexity of the evaluation phases, this simplified solicitation process typically takes 30-90 days.

❖ **Emergency Procurement** – An emergency is a sudden and unexpected occurrence or condition that the University reasonably could not have foreseen requiring an action to avoid or to mitigate serious damage to public health, safety or welfare. An emergency is not a situation that arises as a result of poor planning or lack of funds. Generally, time constraints in resolving the emergency situation may require immediate action that precludes the use of any formal procurement process. Where time permits, the University should attempt to seek as much competition as possible. Contact the Procurement Office or the Strategic Contracting Office (see Appendix 1 for contact information) as soon as an emergency arises to be referred to the appropriate Procurement Officer for guidelines on how best to proceed.
Cooperative purchasing Agreements with other institutions, agencies, governments, etc. The Office of Procurement or Office of Strategic Contracting may from time to time procure requirements through other institutions, agencies or governments to achieve the maximum efficiency and economies in making purchases. In some cases, UMUC may combine its needs with other USM institutions to establish a multi-institutional or system-wide contract. These contracts would be available for use by the institutions as the need arises.

Contracts shared with other institutions, agencies, governments, etc. – UMUC, as well as other campuses of the USM, may insert a requirement into solicitation documents permitting other campuses to use contracts that have been issued by UMUC. The advantage is that it reduces the processing time needed to do a separate solicitation. Where such contracts are made known to the campus, they are available for use by department.

Once the procurement process is completed, the Procurement Officer will issue the purchase order or contract.
PROCUREMENT GUIDELINES
($100,000 or more)
Procurement Guidelines
Orders $100,000 or more

In accordance with the Procurement Policies and Procedures established by the University System of Maryland and implemented by UMUC, where the procurement is reasonably expected to be $100,000 or more, the procurement must be forwarded to the Office of Procurement or the Office of Strategic Contracting for processing through a formal written procurement process. Generally, the larger, more complex procurements are handled by the Strategic Contracting Office; however, initially, Departments may contact either Office. Any of the following formal procurement processes may be used as deemed appropriate by the Procurement Officer:

- **Competitive Sealed Bids** – for orders reasonably expected to be $100,000 or more, the bid process is a formal written bid process in which bids are generally sent to an adequate number of bidders to ensure competition. Specifications are developed working with the department and permit a bid based on lowest bid from a bidder who is both responsive and responsible and meets the specifications set forth in the bid documents. Formal competitive sealed bids are typically processed in 30-45 days depending on dollar value, complexity of procurement, and location of bidders. Solicitations must be published in a manner that best meets the needs of the solicitation. Publication may be accomplished by posting the solicitation on the UMUC electronic bid board, in eMaryland Marketplace, trade journals, etc.

  In some cases, it may be advantageous to conduct a multi-step bid wherein Bidders submit a Technical Offer for evaluation separately from the Price Offer. Only those Bidders evaluated by UMUC as technically qualified will have their prices considered.

- **Competitive Request for Proposals (“RFP”)** – Multi-step process in which there is a separately received and evaluated technical proposal and financial proposal. This method is generally used where the requirements of the procurement are complex and difficult to quantify and award will be based on factors other than cost. RFP’s often include interviews of the proposing firms (or a select group of the proposing firms.) Due to the complexity of the RFP documents and the evaluation process, this process typically takes 60-90 days, but may take longer. Solicitations must be published in a manner that best meets the needs of the solicitation. Publication may be accomplished by posting the solicitation on the UMUC electronic bid board, in eMaryland Marketplace, trade journals, etc. The Procurement Officer will work closely with Requesting Departments to establish the specifications and criteria for the RFP as well as to source potential proposing firms.
Sole Source Procurement – May be used, if appropriate and justified by the Requesting Department with concurrence by the Procurement Officer. Requesting Department must attach a written justification (Sole Source Form) stating the following:

- Need for the service or commodity
- Uniqueness of the vendor’s qualifications, experience, or product
- Attempts to find other sources or basis for the sole source
- Impact if this vendor was not selected. The Sole Source Justification Form shall be used. If additional space is needed, a separate memorandum may be prepared providing the information set forth above. If available, Requesting Department should attach a written price quote (via fax, internet, etc.) confirming the cost.

Note – The same requirements for Emergency Procurements, Cooperative Purchasing Agreements and Contracts shared with other institutions, agencies, governments, etc. for procurements $5,000 but less than $100,000 will be followed for procurements $100,000 or more. In addition, approvals outside UMUC may be applicable to specific procurements. The Procurement Officer will advise you of any of these requirements and will factor these outside approvals in the procurement schedule.
PRINCIPLES AND STANDARDS OF PURCHASING PRACTICE
PRINCIPLES AND STANDARDS OF PURCHASING PRACTICE

The UMUC Procurement Office and Strategic Contracting Office personnel exercise sound business judgment and maintain the highest ethical and moral standards in conducting University business. UMUC endorses and is covered under the Public Ethics Law, State Government Article, Title 15, Subtitle 5. The Procurement Office and Strategic Contracting Office further subscribe to the Principles and Standards of Purchasing Practice by the Institute for Supply Management, which is as follows:

1. Avoid the intent and appearance of unethical or compromising practice in relationships, actions and communications.

2. Demonstrate loyalty to the employer by diligently following the lawful instructions of the employer, using reasonable care and only authority granted.

3. Refrain from any private business or professional activity that would create a conflict between personal interests and the interests of the employer.

4. Refrain from soliciting or accepting money, loans, credits or prejudicial discounts, and the acceptance of gifts, entertainment, favors, or services from present or potential suppliers that might influence, or appear to influence, purchasing decisions.

5. Handle confidential or proprietary information belonging to employers or suppliers with due care and proper consideration of ethical and legal ramifications and governmental regulations.

6. Promote positive supplier relationships through courtesy and impartiality in all phases of the purchasing cycle.

7. Refrain from reciprocal agreements that restrain competition.

8. Know and obey the letter and spirit of laws governing the purchase function and remain alert to the legal ramifications of purchasing decisions.

9. Encourage all segments of society to participate by demonstrating support for small, disadvantaged, and minority-owned businesses.

10. Discourage purchasing’s involvement in employer-sponsored programs of personal purchases that are not business related.

11. Enhance the proficiency and stature of the purchasing profession by acquiring and maintaining current technical knowledge and the highest standard of ethical behavior.

With regard to matters that may involve a conflict of interest within the Requesting Department, such matters should be brought to the immediate attention of the Associate Vice President for Procurement and Business Affairs or the Associate Vice President for Strategic Contracting.
